THE HEATING AND VENTILATING MAGAZINE

INDEX TO VOLUME VIII

1911

NEW YORK
HEATING AND VENTILATING MAGAZINE CO.
1123 BROADWAY

A

Air, conditioning in industrial work, regulation of humidity in paper mills, Alex. H. Twombly, May.
changing the, in assembly rooms, Dec.
do gas lights contaminate? R. F. Pierce, Nov.
dust in city, Dr. George A. Soper, Jan., Feb.
fresh, reduces death rate, March.
in the New York Subway, Dr. George A. Soper, April.
organic matter in expired, Milton J. Rosenau and Harold L. Amoss.
overdryness of, and its results, April.
supply in submarine work, April.
test, importance of outdoor, when testing for CO_2 indoors, April.
test, is the CO_2, a fallacy? Feb., March.
transmission of, and its movement in ducts, George W. Knight and Perry West, Jan., April.
washers, amount of solid material extracted by, Oct.
Allen, Prof. John R., coefficients of heat transmission, July.
American Institute of Chemical Engineers, Jan., Feb.
American Society of Engineer Draftsmen, Jan.
American Society of Heating and Ventilating Engineers, Jan., Feb., March, April, May, June, July, Oct., Nov., Dec.
revised list of nominations, Jan.
seventeenth annual meeting, Feb.
report of committee on rating heating boilers, Feb.
new headquarters of society, Feb.
report of committee on air leakage around windows, March, April.
for a summer meeting on Lake Michigan, April.
advantages of society's new home, May.
April meeting of Illinois Chapter, May.
plans for mid-summer meeting, June.
committee appointments, June.
semi-annual meeting, July.
delegates to National Conservation Congress, Oct.
nominating committee appointed, Nov.
meeting of test committee, Nov.
New York Chapter formed, Nov.
annual meeting of Illinois Chapter, Nov.
American Society of Mechanical Engineers, Jan., Oct.
Architecture and building show in New York, April.

B

Back pressure and atmospheric relief valves, operation of, Nov.
Barwick, Thos., wind effects on heating of buildings, June.
Blower set, test of an unusually high pressure, Nov.
Blower tests, turbine, for forced draft, April.
Boiler rating, problems in connection with, Oct.
exhibit, showing nine different systems of heating, Dec.
Boilers, rating heating, a definite basis for, report of committee on rating heating boilers, American Society of Heating and Ventilating Engineers, Feb.
a new basis for rating house heating, Frank L. Busey, July.
house heating in New York State must be insured or inspected, Dec.
Bolton, R. P., heating requirements in New York weather, March.
Boston, record of the weather in, for Dec., 1910, Jan.
record of the weather in, Jan., 1911, Feb.
record of the weather in, for Feb., 1911, March.
record of the weather in, for March, 1911, April.
record of the weather in, for Oct., 1910, Dec.
British Institution of Heating and Ventilating Engineers,
annual meeting of, March.
summer meeting of, Aug.
programme for autumn meeting of, Nov.
Bryan, William Henry, death of, Jan.
Building trades association in Chicago, new, Sept.
Burrage, Ph.D., Severance, value of good ventilation, Feb.
Busey, Frank L., a new basis for rating house heating boilers, July.

C

Calorimeter, respiration, July.
Canada's asbestos supply, Aug.
Car ventilation, Oct.
new scheme of automatic, June.
progress of street, W. Thorn, Sept.
Carrier, Willis H., new humidity charts and formulas, Dec.
Catalogues, a movement to standardize, July.
Central station heating, B. T. Gifford.
pipe line design for, Feb.
pipe line losses, April.
rates, May.
ready to serve or maximum demand rate, June.
operation, July.
pipe line losses from friction, Aug.
management, Sept.
maintenance, Oct.
first authoritative work on, Dec.
Chicago contractors' association, new, Sept.
ventilation commission, novel experiments being conducted by the, Sept.
Chicago, record of the weather in, for Dec., 1910, Jan.
record of the weather in, for Jan., 1911, Feb.
record of the weather in, for Feb., 1911, March.
record of the weather in, for March, 1911, April.
record of the weather in, for Oct., 1911, Dec.
Chimneys, Cross-Section of, C. C. Mulford, Dec.
Cleveland schools, for better air in, March.
Coal, future use of soft, in New York, Sept.
Coefficients of heat transmission, John R. Allen, July.
Colbert, Dr. W. F., official Federal Furnace League method of rating furnaces, July.
Concrete buildings, heating and ventilating, F. G. Stevens, Nov.
effect of, on heating mains, April.
Congress of Technology, Boston, March, April.
Copping, Geo. L., centrifugal fan testing, Dec.
Correspondence.
takes issue with Dr. Evans, Jan.
rating of boilers and the use of fuel gas, March.
new building inspection bill before Massachusetts Legislature, April.
peculiar conditions in steam heating plant, Dec.
ten formulas for radiation, Dec.
Creditors form company to complete contract, Jan.
Current heating and ventilating literature, Jan., Feb., March, May, Aug., Sept., Oct., Nov., Dec.

D

Davis, F. H., a house with radiators on inside walls, May.
Definite basis for rating heating boilers, report of committees on rating of heating boilers, American Society of Heating and Ventilating Engineers, Feb.
Dolby, Ernest R., some doubtful points in hot water heating, Aug.
Dowd, Jr., W. E., superheated steam in heating work, Aug.
Drying system, a novel, April.
Durability of welded pipe in service, F. N. Speller, March.
Dust in the city air, Dr. George A. Soper, Jan., Feb.

E

Economy in the ventilation of a hospital building, Coney Island Hospital, Jan.
Evans, M.D., W. A., standards of ventilation, Feb.

F

Factory building, novel equipment of a modern, Brewster & Co., Long Island City, July.
buildings, heating arrangements for an extensive group of, United Shoe & Machinery Co., Beverly, Mass., Nov.
sanitation and efficiency, C. E. A. Winslow, May.
ventilation law, proposed, for Wisconsin, March.
Fan, accident with gas stoves due to ventilating, Nov.
characteristics of the propeller, Oswald Scott, Sept.
performance, a remarkable, Oct.
running record of new Buffalo exhaust, July.
testing, centrifugal, Geo. L. Copping, Dec.
Fans, vibrations caused by ventilating, Sept.
Federal Furnace League, May, July.
method of testing furnaces, Dr. W. F. Colbert, July.
Federal Heater Co., $8,200,000, July.
Federal system of heating and ventilating, the forthcoming, Oct.
Flue gas temperature, convenient means for determining, Nov.
Foreign trade, a plan to advance, July.
Free engineering, Geo. W. Knight and Perry West, Supt.

G

Gas lights contaminate air, do R. F. Pierce, Nov.
Gifford, B. T., central station heating, April, May, June, July. Aug., Sept., Oct.
pipe line design for central station heating, Feb.
Greenhouse heating charts, John A. Payne, Nov.

H

Heat transmission, coefficients of, John R. Allen, July.
Heater coils, loss of pressure in blowing air through, with new formula, Prof. E. M. Shealy, Nov.
Heating arrangements for an extensive group of factory buildings, United Shoe Machinery Co., Beverly, Mass., Nov.
central station, pipe line design for, B. T. Gifford, Feb.
pipe line losses, April.
rates, May.
ready to serve or maximum demand rate, June.
operation, July.
pipe line losses from friction, Aug.
management, Sept.
maintenance, Oct.
charts, greenhouse, John A. Payne, Nov.
design, an unusual steam, May.
hot water, some doubtful points in, Ernest R. Dolby, Aug.
features of the Reck mixing system for hot water, Capt. A. B. Reck, Sept.
modern design in hospital, Clarence W. Williams, Nov., Dec.
New York surface cars, requirements for, April.
of buildings, how wind affects the, committee report American Society of Heating and Ventilating Engineers, March, April.
wind effects on the, Thomas Barwick, June.
of portable buildings, March.
practice, what is the matter with modern? Konrad Meier, Jan.
rates for, Oct.
relative economy of intermittent and continuous, Oct.
requirements in New York weather, R. P. Bolton, March.
system for the Doherty silk mill, Paterson, N. J., April.
an extensive, Boston City Hospital, Feb.
systems, method of connecting hot water to a district, A. C. Rogers, June.
trust, America's alleged, Dec.
vapor, Thomas G. Mouat, July.
work, superheated steam in, W. E. Dowd, Jr., Aug.
use of steam turbines in, Sept.
Heating and plumbing work, Gov. Dix vetoes bill for separate bidding on, Aug.
Heating and ventilating, a large city residence, residence of Whitelaw Reid, New York, Sept.
concrete buildings, F. G. Stevens, Nov.
data, remarkable fund of, Jan.

equipment of the City Investment building, N. Y., J. Byers Holbrook, Oct.
German ideas on, Dec.
some essentials of hospital, D. D. Kimball, Nov.
system for the Oliver building, Pittsburg, Pa., Jan.
the forthcoming Federal system of, Oct.
two school buildings from a central plant, S. R. Lewis, Aug.
Union League Club, Philadelphia, April.
Holbrook, J. Byers, heating and ventilating equipment of the City Investment building, N. Y., Oct.
Hospital heating and ventilating, some essentials of, D. D. Kimball, Nov.
building, economy in the ventilation of a, Coney Island hospital, Jan.
heating, modern design in, Clarence W. Williams, Nov. Dec.
Hot blast formulas, two new, Nov.
Hot water heating systems, for a large city residence, residence of Whitelaw Reid, N. Y., Sept.
methods of connecting to a district heating system, A. C. Rogers, June.
House with radiators on inside walls, F. K. Davis, May.
Humidity, regulation of, in paper mills, Alex. H. Twombly, May.
charts and formulas, Willis H. Carrier, Dec.
Hygrometer, home-made, Aug.

I

Institute of Operating Engineers, Aug., Oct.
first annual meeting of, Sept.
Isolated Plant Association, Jan., March.
International Heating and Ventilating Congress, June.
Is the CO_2 air test a fallacy?, Feb., March.

J

Johns-Manville Co., H. W., new office building for the, Aug.

K

Kimball, D. D., some essentials of hospital heating and ventilating, Nov.
Knight, Geo. W. and Perry West, free engineering, Sept.
transmission of air and its movement in ducts, Jan., April.

L

Legal decisions, Jan., April, June, July, Aug., Oct.
Lewis, S. R., heating and ventilating two school buildings from a central plant, Aug.
Loss of pressure in blowing air through heater coils with new formula, Prof. E. M. Shealy, Nov.

M

Mackay, James, death of, Aug.
Master steamfitters organizations of Chicago, June.
Mechanical equipment of a modern factory building, plant of Brewster & Co., Long Island City, July.
Meier, Konrad, what is the matter with modern heating practice? Jan.
Methods of connecting hot water heating systems to a district heating system, A. C. Rogers, June.
Mouat, Thos. G., vapor heating systems, July.
Mulford, C. C., cross-sections of chimneys, Dec.

N

National association of jobbers of wrought iron pipe and fittings, April.
of Master Steam and Hot Water Fitters, March, April, May, July.
twenty-third annual convention of, June.
of Sheet Metal Contractors, annual convention of, Sept.
District Heating Association, Feb., April, Aug., Nov., Dec.
programme for annual meeting, May.
third annual convention of, June.
Nebraska hygienic programme, March.
New Books,
Flow in pipes, V. Blaess, Sept.
Building for profit, R. P. Bolton, Sept.
Economy of centralized heating, G. de Grahl, Nov.
Notes on heating and ventilating, Prof. John R. Allen, Nov.
Transactions for 1910, American Institute of Chemical Engineers, Nov.
Domestic sanitation and plumbing, A. Herring-Shaw, Nov.
Drying machinery and practice, Thomas G. Marlow, Aug.
Handbook for heating and ventilating engineers, N. Y., Prof. James D. Hoffman, Jan.
New York City, record of the weather in, for Dec., 1910, Jan.
record of the weather in, for Jan., 1911, Feb.
record of the weather in, for Feb., 1911, March.
record of the weather in, for March, 1911, April.
record of the weather in, for April, 1911, May.
record of the weather in, for Oct., 1911, Dec.
New York Subway, air in the, Dr. Geo. A. Soper, April.
weather, heating requirements in, R. P. Bolton, March.

O

Ohio's new building code, July, Sept.
Ohio Society of Mechanical, Electrical and Steam Engineers, April.
Open air school, the so-called, Dr. Wm. E. Watt, March.
Organic latter in expired air, Milton J. Rosenau and Harold L. Amoss.
Ozonized air for London tubes, Nov.

P

Payne, John A., greenhouse heating charts, Nov.
Peat industry, possibilities of the, Nov.
machine, largest in the country, July.
Pierce, R. F., do gas lights contaminate air? Nov.
Pipe, durability of welded, in service, F. N. Speller, March.
line design for central station heating, B. T. Gifford, Feb.
Pipes, steam friction in, May.
Piping, power house color scheme for identification of, July.
Pittsburg, record of the weather in, for Dec., 1910, Jan.
record of the weather in, for Jan., 1911, Feb.
record of the weather in, for Feb., 1911, March.
record of the weather in, for March, 1911, April.
record of the weather in, for April, 1911, May.
record of the weather in, for Oct., 1911, Dec.
Power plant, operation of the Wells Power Co., Milwaukee, Jan.

R

Radiation, ten formulas for figuring, Oct.
Radiators on inside walls, a house with, F. K. Davis, May.
steam distribution in, with the Modulation system, Nov.

Rating heating boilers, a definite basis for, report of committee for rating heating boilers, American Society of Heating and Ventilating Engineers, Feb.
Reck, A. B., features of the Reck mixing system for hot water heating, Sept.
Review of heating literature, greenhouse heating charts, John A. Payne, Nov.
cross-sections of chimneys, C. C. Mulford, Dec.
Rogers, A. C., methods of connecting hot water heating systems to a district heating system, June.

S

School building construction, statistics of, Sept.
heating apparatus, plan for maintaining efficiency of, Sept.
house construction, compulsory regulation of, in the United States, April.
Shealy, Prof. E. M., loss of pressure in blowing air through heater coils, with new formula, Nov.
So-called open air school, Dr. W. E. Watt, March.
Soper, Dr. Geo. A., dust in the city air, Jan., Feb.
air in the New York Subway, April.
Speller, F. N., durability of welded pipe in service, March.
Standards of ventilation, Dr. W. A. Evans, M.D., Feb.
Steam distribution in radiators with the modulation system, Nov.
heating design, an unusual, May.
so-called superiority of exhaust, over live steam for heating, Oct.
turbines, use of, in heating work, Sept.
Steam heating and ventilating engineers of Chicago, May.
Stott, Oswald, characteristics of the propeller fan, Sept.
Street car ventilation, progress of, W. Thorn, Sept.
cars, air inlets on, admit dust, Dec.
Superheated steam in heating work, W. E. Dowd, Jr., Aug.
St. Louis, record of the weather in, for Dec., 1910, Jan.
record of the weather in, for Jan., 1911, Feb.
record of the weather in, for Feb., 1911, March.
record of the weather in, for March, 1911, April.
record of the weather in, for April, 1911, May.
record of the weather in, for Oct., 1911, Dec.

T

Temperature records, use of, Oct.
Theatre building, ventilation for a compact, Folies-Bergere, N. Y., Oct.
Thompson, Nelson S., ventilation of the Capitol, Washington, D. C., Mar.
Thorn, W., progress of street car ventilation, Sept.
Transmission of air and its movement in ducts, Geo. W. Knight and Perry West, Jan., April.
Turbine blower tests for forced draft, April.
Twombly, Alex. H., regulation of humidity in paper mills, May.

U

Union League Club, Philadelphia, heating and ventilating of, April.
United States Bureau of Mines, Feb.

V

Vacuum cleaning, importance of, to the ventilating engineer, Oct.
Value of good ventilation, Severance Burrage, Ph.D., Feb.
Valves, operation of back pressure and atmospheric relief, Nov.
Vapor in air at different heights, to determine, April.
heating systems, Thomas G. Mouat, July.
Ventilate closed room, radical legislation proposed to, March.
Ventilated assembly room, a well, April.
Ventilating systems, small air balloons show defects in, April.
appliances on Chicago's elevated cars, Dec.
use of cold air in, May.
reversible, for an auditorium, Sunday-school of Society for Ethical Culture, N. Y., May.
Ventilating Pennsylvania Railroad tunnel in Baltimore, Md., Oct.
Ventilation, bill, new, in New York state, May.
breathing dolls to demonstrate good, Nov.
for a compact theatre building, Folies-Bergere, N. Y., Oct.
health officer of Columbus urges better, Nov.
infected milk may be caused by poor, March.
for prevention of pneumonia, March.
law for North Dakota, June.
Indiana passes, May.
new in Kansas, May.
proposed factory, for Wisconsin, March.
new scheme of automatic car, June.
of a hospital building, economy in the, Coney Island hospital, Jan.
of the Capitol, Washington, D. C., Nelson S. Thompson, March.
problem of sub-basement, Oct.
Progress of street car, W. Thorn, Sept.
requirements, present status of, in Massachusetts, April.
standards of, W. A. Evans, M.D., Feb.
value of good, Severance Burrage, Ph.D., Feb.
and heating of public buildings in 1859, June.
and labor efficiency, Sept.
and the body's air envelope, May.
Ventilators on bottoms of cars, Oct.

W

Warren Webster & Co.'s twenty-third anniversary, April.
Water heaters, overcoming lime deposits in, May.
Watt, Dr. Wm. E., so-called open-air school, March.
Weather reports, for,
December, 1910, Jan.
January, 1911, Feb.
February, 1911, March.
March, 1911, April.
April, 1911, May.
October, 1911, Dec.
Wells Power Co., Milwaukee, operation of the plant of, Jan.
West, Perry, and Geo. W. Knight, air and its transmission in ducts, Jan., April.
free engineering, Sept.
What is the matter with modern heating practice? Konrad Meier, Jan.
Wind affects the heating of buildings, how, committee report American Society of Heating and Ventilating Engineers, March, April.
effects on heating of buildings, Thomas Barwick, June.
Windows, tight storm, a cause of disease, March.
Williams, Clarence W., modern design in hospital heating, Nov., Dec.
Winslow, C. E. A., factory sanitation and efficiency, May.
